

## How to Control the Temperature

There are 3 AC units in this house. One in each bedroom and one in the main living area. Each is controlled by a separate control unit located in each of the rooms. These have been pre-programmed for your comfort, but if you would like to adjust the temperature up or down, you may do so within a pre-set range.

**DO NOT TOUCH THE AC UNITS OR ATTEMPT TO MODIFY THE AC UNIT IN ANY WAY. USE THE CONTROL UNIT ONLY.**
